

Code 2 : Variables

```
import java.util.Scanner;

class PracticalOneB {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);

        var name = " ";
        var age = 0;
        var department = " ";

        System.out.print("Enter your full name : ");
        name = sc.nextLine();
        System.out.print("Enter your Department : ");
        department = sc.nextLine();
        System.out.print("Enter your age : ");
        age = sc.nextInt();

        System.out.println("Name : " + name );
        System.out.println("Department : " + department );
        System.out.println("Age : " + age );

    }
}
```

Output :

```
D:\_3rdYrNotes\IT-3rd-year-notes\Java\Practical One\codes>java PracticalOneB
