```
Use the 1 and 1 keys to select which entry is highlighted.
Press enter to boot the selected OS, 'e' to edit the commands before booting or 'c' for a command-line. ESC to return previous menu.
```

**GNU GRUB** 

Recovery Menu

**Root Shell** 

```
Press Enter for maintenance
(or press Control–D to continue):
root@ubuntu:~# mount –o rw,remount/
mount: bad usage
Try 'mount ––help' for more information.
root@ubuntu:~# mount –o rw, remount/
mount: remount/: can't find in /etc/fstab.
root@ubuntu:~# mount –o rw,remount /
root@ubuntu:~# _
```

Mount -o rw,remount /

```
root@ubuntu:~# passwd dhondpratyay
New password:
Retype new password:
passwd: password updated successfully
root@ubuntu:~# shutdown –r
```

Changing password
